

QUICK START GUIDE

GETTING STARTED

CHARGING YOUR UNIT

Charge the unit completely after purchase using the supplied USB cable. Plug into power while off and do not power on unit when plugged in.

The indicator light will be solid red while charging and will turn blue when the unit is fully charged.

BASIC FUNCTIONS

POWER

To power on, press the power button (the logo) until the indicator light turns on, about 3 seconds. To power off, hold the power button until the light turns off, about 5 seconds.

VOLUME

Incremental taps of up and down buttons will increase and decrease volume.

ENSURE SPEAKERS ARE FULLY PLUGGED IN

Speaker wire should be completely inserted until three ribs are hidden. This will create a watertight connection.

BLUETOOTH PAIRING & FUNCTIONS

1

With the unit powered on, press and hold the up and down buttons simultaneously for two seconds until the indicator light blinks blue and red.

2

Navigate to Bluetooth settings on the device being paired. Ensure that the device has Bluetooth activated. The UCLEAR should now appear in the list of available devices. Click on the model name to complete the pairing. Once successful, phone calls and media, such as music, will stream directly to the UCLEAR unit.

PHONE FUNCTIONS

TO ANSWER INCOMING CALL
Say "hello" or press the power button once

TO REJECT OR END A CALL
Hold power button for two seconds

REDIAL LAST NUMBER
Hold power and up buttons for two seconds

ACTIVATE SIRI / GOOGLE VOICE FOR VOICE COMMANDS

MUSIC PLAYBACK FUNCTIONS

PLAY MUSIC
Press the power button twice

STOP/PAUSE MUSIC
Press the power button once

BACKTRACK
Press the down button twice

SKIP TRACK
Press the up button twice

QUICK START GUIDE

PAIRING UNITS FOR INTERCOM

1

Begin with all units powered off. On unit one, press and hold the power and down buttons for about 3 seconds until the indicator light comes on. It will start flashing purple.

2

On the second unit, press power and up for about 3 seconds until the indicator light comes on. Give it several seconds to finish a light sequence. Then the first unit will double flash blue while the second unit will flash purple.

IF PAIRING ONLY 2 UNITS, PROCEED TO STEP 4. IF PAIRING ADDITIONAL UNITS IN THIS GROUP, PROCEED TO STEP 3.

3

Repeat step two on the next unit. As soon as unit two is double flashing blue and unit three is flashing purple, you can proceed to unit four. Repeat until every unit is in the chain.

4

Press the power button once (single tap) on the last unit in the string to complete the pairing process. All units will now double flash blue.

5

To save the pairing group to each device's memory, power off all units by holding the power button until light turns off.

USING INTERCOM MODE

ACTIVATING INTERCOM

With all units powered on, press and hold the up button on any one of the units for about 3 seconds to activate intercom. That user will hear a tone through the speakers at which point they can release the button. After a few seconds of "searching" for paired units, intercom will activate for all users in the group.

NOTE: If a previously-paired unit was off or not present when intercom was activated, they can join the group by pressing the up button on their unit for 5 seconds or until the beep is heard. They will now be added to the existing group's conversation.

EXITING INTERCOM MODE

Pressing the down button on any one unit for about two seconds (until the tone sounds) will deactivate intercom for the entire group.
